

Tidjikja - Nema

km	Lat - deg	Lat - min	Long - deg	Long - min	Description
0	18	32.830	-11	25.526	Tidjikja. Beginning of the piste through a sandy oued and agriculture fields
5	18	30.813	-11	24.634	Exit of oued. Piste turns SE
9	18	28.875	-11	22.977	Crossing of the oued Tidjikja
15	18	26.232	-11	21.874	Piste diverges. Follow left track to climb the hill
20	18	24.441	-11	20.151	Exit of hammada. Piste alternates between hammadas and sandy areas
28	18	21.383	-11	16.922	Piste turns E
73	18	21.527	-11	8.652	Point in piste
83	18	20.879	-11	4.194	Point in piste
92	18	23.444	-11	0.230	Small house at left. Piste heads north to avoid the escarpment. Piste less well marked
114	18	25.408	-10	51.088	Point in piste
121	18	27.376	-10	48.893	Exit of nomad campground. Head straight E
142	18	27.743	-10	37.691	Rock formations
156	18	30.846	-10	30.617	Exit of Le Khcheb wells heading N, but afterwards heading E
168	18	30.759	-10	25.628	Piste heads N and afterwards E across a stony area
177	18	33.458	-10	21.968	Descendent into sandy area
193	18	31.834	-10	15.509	Piste heads SW. You may leave the piste at this point to visit the Dreiss Gorge
206	18	32.400	-10	9.514	Sandy area
223	18	36.077	-10	1.049	Sandy area with some difficult sections
247	18	35.163	-9	48.872	Beginning of the Tichitt escarpment. Zig wells at right in the base of the scarp. Piste heads SE
256	18	33.055	-9	44.703	Very sandy section
277	18	29.155	-9	34.251	Piste very sandy but well marked
283	18	28.197	-9	31.234	Exit of sandy area
287	18	26.690	-9	29.685	Entering Tichit
289	18	26.227	-9	29.464	Exit of Tichit. Fast piste running along the southern face of the escarpment in a dry salt lake
302	18	23.170	-9	21.517	Entering a small dune area and afterwards an extensive dry salt lake
317	18	20.000	-9	13.662	Reg. Heading NE to avoid dune fields at SE
322	18	21.045	-9	11.297	Exit of Arhrijit village heading towards a pass in the escarpment
332	18	21.359	-9	6.898	Sandy piste with small sebhka at north
344	18	22.666	-9	0.529	Small pass into plain between scarps
347	18	22.940	-8	58.716	Piste diverges inside dune field. Head SE
348	18	22.587	-8	58.567	Piste now heads S-SW in a very sandy area
354	18	20.352	-8	57.087	Touijinet wells and diatomite field. Piste heads E-SE
361	18	20.158	-8	54.360	Pass between rock formations. Piste heads NE into sandy area along the escarpment
371	18	24.886	-8	51.333	Large sandy area. Piste turns E
383	18	23.800	-8	45.526	Large sandy area with some ascendants. Piste heads SE
395	18	23.959	-8	39.361	Dune fields ahead. Piste remains very sandy heading E. Great sandy descendent near next waypoint
399	18	24.465	-8	37.323	Piste remains sandy heading E towards Guelb Makhrougat. Several sandy ascendants and descendents
405	18	23.729	-8	34.498	Exit of Guelb by south between small rock outcrop. Piste heads SE
407	18	23.460	-8	33.214	Guelb Mhassai. Piste less well marked heads E-SE
411	18	22.903	-8	31.190	Aratane wells. Piste less well marked. Head N for about 1 km and then E to avoid the hammada E of the wells
415	18	22.564	-8	28.591	Point in piste

					piste. Until km 458 GPS coordinates are given for guidance only
422	18	20.383	-8	27.250	Point. Head E
428	18	20.381	-8	26.180	Point. Head E
431	18	20.998	-8	24.643	Point. Head NE
436	18	20.911	-8	21.596	Exit of dune field but more dunes ahead. Head E
445	18	21.798	-8	17.239	Sandy area. Head E
452	18	23.432	-8	13.519	Exit of sandy area into reg. Head E
456	18	23.295	-8	11.770	Exit of reg into small dune field. Head E
458	18	22.863	-8	10.500	Piste now clearly visible. Exit of dune field into reg. Small dunes ahead may cover the main piste
470	18	19.406	-8	6.035	Piste clearly visible heading S over a sandy hammada
484	18	13.624	-8	5.603	Point in piste. Head SW
487	18	12.593	-8	7.554	Stony piste over a black hammada
491	18	10.879	-8	8.793	Piste remains stony now heading S-SE
497	18	9.666	-8	5.936	Piste progressively sandier heading E
498	18	9.319	-8	5.628	Sandy piste
500	18	8.863	-8	5.704	Extremely sandy ascendant into Enji pass
508	18	6.823	-8	2.000	Point in piste. Head SE
513	18	6.272	-8	0.189	Sandy descendent of plateaux. Piste heads SW
526	17	59.800	-8	2.034	Sandy plain with small rocks
535	17	57.891	-7	57.519	Piste diverges to cross oued
548	17	51.457	-7	55.189	Piste visible and marked with stone piles over hammada. Oujaf wells at south with clear water at minus 3 m
559	17	49.070	-7	50.724	Stone piles. Piste heads SE
571	17	46.554	-7	44.066	Exit of hammada into dune field. Contour escarpment by south
578	17	46.817	-7	40.987	Exit of dune fields into hammada. Piste well marked heading E
582	17	46.873	-7	37.794	Barkhane field. Until km 602 the piste is frequently covered by the moving dunes
583	17	46.877	-7	37.287	Exit of barkhane field into hammada corridor. Piste clearly visible
588	17	44.810	-7	35.981	Barkhane field ahead. Contour by S-SW and then head SE
595	17	42.675	-7	34.268	Neolithic vestiges in hammada surrounded by barkhane fields
599	17	42.916	-7	32.525	Heading E-NE to contour barkhane field
602	17	42.925	-7	31.320	Piste now clearly visible heading SE
610	17	39.329	-7	28.429	Reg. Heading S
624	17	32.742	-7	26.938	Hammada alternating with sandy oueds
635	17	27.656	-7	25.642	Fast and well marked piste with some sandy sections
650	17	24.374	-7	18.702	Fast and well marked piste heading E-SE between two escarpments
660	17	24.454	-7	13.215	Fast and well marked piste heading SE
679	17	17.429	-7	7.110	Fast and well marked piste heading SE. Nsara wells at south
685	17	17.426	-7	3.736	Pass. Until Oualata the piste is very sandy
689	17	17.584	-7	1.637	Oualata. For Nema head SW
692	17	16.447	-7	3.476	Exit of sandy area. Shortcut from Tichitt joins from right. Piste well marked
707	17	11.964	-7	7.608	Fast and well marked piste with some sandy sections
728	17	8.089	-7	18.022	Piste well marked heading SW
748	17	0.004	-7	23.380	Piste well marked heading SW
765	16	52.897	-7	27.433	Piste well marked heading SW
782	16	44.836	-7	24.462	Piste well marked heading SE
805	16	36.759	-7	15.406	Nema. Beginning of paved road
